

ACHIEVEMENT HIGHLIGHTS

Having completed this track, the candidate has demonstrated proficiency in learning to work effectively with AI by mastering the following core competencies.

• Prompt and content engineering

Crafting effective prompts and engineering content outputs.

• Strategic AI application

Deploying ChatGPT, Gemini, Claude, and Copilot for daily and professional workflows.

• Operational integrity

Implementing AI hygiene, privacy guardrails, and techniques to mitigate hallucinations.

• Knowledge synthesis

Using NotebookLM and RAG-based tools to manage information effectively.

• Conceptual fluency

Distinguishing AI agents from agentic AI, and navigating free versus paid tools.
