

## ACHIEVEMENT HIGHLIGHTS

Having completed this track, the candidate has demonstrated proficiency in learning to work effectively with AI by mastering the following core competencies.

### • Prompt and content engineering

Crafting effective prompts and engineering content outputs.

### • Strategic AI application

Deploying ChatGPT, Gemini, Claude, and Copilot for daily and professional workflows.

### • Operational integrity

Implementing AI hygiene, privacy guardrails, and techniques to mitigate hallucinations.

### • Knowledge synthesis

Using NotebookLM and RAG-based tools to manage information effectively.

### • Conceptual fluency

Distinguishing AI agents from agentic AI, and navigating free versus paid tools.
